

Granton Bayless Benefit Ride

Granton Bayless is a seven month old little boy from Bolivar, Missouri. In March of 2008, Granton was diagnosed with Severe Combined Immunodeficiency (SCID.) SCID is a rare genetic disorder in which the immune system fails to develop. Granton is the light of his parents' life and has become the focus of prayer for a countless number of friends, family, and others. The financial strain on Granton's Mom and Dad has already been great and has only been overshadowed by the emotional strain they have felt over these last few weeks. On June 16th, 2008, I will set off on a five day, 330 mile solo bicycle ride to raise money for Granton's family. Your pledges will allow us all to attempt to help alleviate some of this financial strain.

All the money collected in this ride will go toward Granton and his family; your pledges will be deposited into an account at the Bank of Bolivar in Granton's name. Please send your pledge dollars to:

"Granton Bayless Benefit Ride"
Bank of Bolivar
PO Box 560
Bolivar, MO 65613
Attn: Debbie Keith
